Info

EVOLUTION, the case generation developed by PARAT

PARAT

Equipment of the EVOLUTION series:

- 4-fold telescope-guided drawers 960 mm long
- Powder coated
- Rubber-coated rollers with bearings
- No tilting thanks to wide wheelbase
- Thanks to the new and innovative LFI production method, where the deep drawn case shell made of PX-ABS is back-foamed with fibre glass reinforced polyurethane, the case achieves unsurpassed strength
- The necessary stability for the rough baggage handling when flying (the cases are airworthy) is therefore ensured
- Durable tool boards made of ConPearl®
- Tool holding system CP-7 or stiched dividers
- PARAT-barrel locks
- Bottom studs
- Ergonomically formed handle with recessed grips

86378

EVOLUTION service cases with wheels, foldout front wall (empty)

PARAT

Type

- Fold-out front wall
- 1 document compartment in the lid
- 3-part set of drawers with extra large and stable drawers

86408

Rollbox

Type

A tool box on wheels. Made of solid sheet steel with environmentally friendly powder-coating.
With retractable handle for moving. Dimensions in extended position: 680 x 395 x 760 mm.
 When folded (without carrying handle) 640 x 395 x 360 mm.
Finish: 2 colours, red/black.

Use

- The Rollbox offers the following advantages:
- Easy moving instead of heavy carrying.
 - Easy to open and close by one-hand action.
 - Easy opening without getting wedged.
 - Tools and equipment are always accessible at perfect height.
 - Needs only small space in closed position.
 - Ideal for assembly works at different locations.
