RasterPlan perforated plate system

KAPPES
Design

- Systematic method to achieve tidiness with RasterPlan perforated plates
- Clearly arranged tool storage
- Fast access
- Systematic and colour-based organisation
- Impact-resistant and scratch-resistant plastic coating
- Specially shaped beams
- Sheet steel 1.25 mm
- Concealed screw holes
- 6 brilliant colours
- 4 sizes, 8 flexible applications
- Compatible with RasterPlan slotted plates
- Delivery without tool holder

Applications

Can be combined and applied universally, from a single perforated plate on a wall, dividers, trolleys and partitions to workshop cabinets and pull-out cabinets.

Note:

For tool holders, see art. no. 82471-82483.

KAPPES

ABAX® connects RasterPlan tool holders to all Kappes products with RasterPlan system perforation in seconds and without the need for tools.

Design

RasterPlan tool holders with ABAX®connection are an innovative and fully compatible extension of the well-known RasterPlan tool holder.

ABAX® connects RasterPlan tool holders to all Kappes products with RasterPlan system perforation in seconds and without the need for tools.

Positive locking and securing is performed after mounting by fixing the ABAX® connection and pressing on the locking pin.

By simply pulling out the locking pin without the use of tools, the ABAX® connection can be released and re-used. ABAX® enables fast and flexible positioning of RasterPlan tool holders. RasterPlan and ABAX® – a strong connection!

Advantages:

- Tool-free installation
- Simple and safe handling
- Maximum flexibility as dismantled without tools
- Impact-resistant and scratch-resistant plastic coating
- Embossed base plates 1.5 mm thick
- 2 organisational colours, aluminium-coloured or anthracite grey (deliverable on request)
- Including original ABAX® connection

KAPPES

Design

Systematic method to achieve tidiness with original RasterPlan slotted plates. **A fundamental element of the RasterPlan system.** Universal holders, easy-view storage bins, steel shelves and many other holders can be hooked into the stamped perforation of the slotted plates easily and at any time. RasterPlan slotted plates can be combined and used universally, on walls, as backs of workbenches, in partition walls, trolleys, even installed in cabinets, all in a single system.

- Clearly arranged tool storage
- Fast access
- Systematic and colour-based organisation
- For HHW easy-view storage bins size 5 - 8
- Impact-resistant and scratch-resistant plastic coating
- Specially shaped beams
- Sheet steel 1.25 mm
- Concealed screw holes
- 4 brilliant colours
- 7 sizes, 7 applications
- Compatible with RasterPlan perforated plates

Structure of the rear:
RasterPlan slotted plates are braced at the rear with specially shaped trusses, double-sided spot welded, for maximum loading.

Info

Open-fronted storage bins for slotted panels

The special construction of the suspension bar allows the open-fronted storage bins to be hung up and down absolutely horizontally even when they are filled. So no more spillage of the stored goods.

See catalogue pages 83.1 and 83.2 for open-fronted storage bins.

The flexible CLIP-O-FLEX hook-in system is available on its own (hook-in rail and hook-in profile) and also as part of a storage compartment/drawer or in combination with tool trolleys, workbenches, serving trolleys etc.

You can secure or release your work surface/storage area or your existing organisation system in a single hooking action.

You can make your workplace ergonomic with various angles of inclination 0/40/80° or 0/45/90° - or use lateral movement options.

CLIP-O-FLEX fixes your work surface/storage area or your organisation system using only one clip yet with the highest level of horizontal and vertical flexibility!

The flexible hook-in profile allows variable suspension or hooking configurations at angles of 0/40/80° or 0/45/90° and lateral movement at all times.

The robust hook-in rail is made of aluminium and is very lightweight, durable and stylish.

Lateral movement possible.

Prefabricated trays in various sizes, e.g. in combination with a hard foam insert or as a storage area.

Order the hook-in rail and hook-in profile individually and customise your own individual and flexible components, work surfaces or storage areas.

The benefits of CLIP-O-FLEX!

- Fast access to work equipment
- Flexible workstation design
- Excellent clarity
- Quick exchange and replacement
- Ergonomic workstation design
- Quick retrofitting
- Cutting down on travel paths
- Optimum work surface utilisation without loss

Determine angle, attach clip and your work surface/storage area is secured. Possible tilt angles 0/40/80° or 0/45/90°.

82373

CLIP-O-FLEX hook-in rails

82373

Design

- Total length = nominal length + 5 mm cover caps
- Pre-drilled
- The scope of delivery includes cover caps, plus fastening material

Applications

For mounting on RasterPlan perforated walls (centre-to-centre distance 38 mm), workbenches, tool trolleys, wall/workbench superstructures. As a holder for CLIP-O-FLEX hook-in profiles and trays.

Quality

Aluminium, natural anodised.

CLIP-O-FLEX workbenches

Design

Workbench comprising:

- Multiplex worktop
- Cabinet
- Base
- Workbench superstructure (only end no. 102, 103, 202 and 203)

Multiplex worktop

- Painted 40 x 1500 x 750 mm
- Right, left and front with bolted-on CLIP-O-FLEX hook-in rails

Cabinet

- 2 x drawers with full extension, front height of 90 mm, load capacity 35 kg
- 6 x landscape trays, each with 2 CLIP-O-FLEX hook-in profiles 0/40/80°
- 1 x door H = 540 mm, hinged on the left
- Cabinet can be locked via central lock
- Colour of housing: RAL 9006 white aluminium
- Colour of drawers/front: RAL 9005 jet black
- H x W x D = 840 x 1500 x 750 mm

Base

- 1 x base H x D = 800 x 680 mm
- Made from robust U-profile steel
- 80 x 50 x 2.0 mm with cross-bracing
- Base without level adjustment
- 1 x trim with cross brace

82378 101-103

Design

- 6 pairs of fixed support brackets for CLIP-O-FLEX trays

82378 201-203

Design

- 6 pairs of extension systems for CLIP-O-FLEX trays

With fixed support bracket

Trays can be easily placed on the support bracket.

Extension system

The convenient extensions allow easy removal and insertion of the trays by also pulling out the rail.

82378

The undercounter cabinet is equipped with 6 CLIP-O-FLEX trays. These can be easily removed and stowed away neatly and clearly in the undercounter cabinet again after use.

Trays can be fitted anywhere at the side of the workbench. Tools and other material do not require space on the workbench top panel.
